

VILLAGES OF PROVENCE

PHOTO WORKSHOP & REALLY FUN TOUR

2 Options: Photographers AND Non-Photographers

This unique region is one of our favorites on the entire planet! We'll stay in a gorgeous historical town center and take treks to enchanting nearby villages, some little known and some classic gems like Roussillon and Gordes. We'll experience the gorgeous Provencal countryside, vineyards, architecture, people, the famous open air markets and of course the fabulous food, which is both lovely to behold and tasty! We'll indulge in that exquisite local cuisine, fabulous wine, and experience Provencal hospitality.

We've designed this so you'll be part of an amazing travel experience with superb lodging, authentic local cuisine and wine, and visits to fascinating places. Joel is dedicated to the photo participants while Barb is devoted to those not into photography.

Join internationally published photographer Joel Wolfson and his wife and French cultural guide Barb Wolfson, as they take you on a creative and cultural journey through one of the most spectacular regions on earth. You'll experience firsthand, historic villages and towns full of fantastic architecture,

beautiful villages nestled in the mountains, vineyards and wineries including tastings, as well as ancient Roman ruins and aqueducts. And much more!
